

"Andy said he learned more in his one hour with you each week, than he did all week in his regular Spanish class." – **Kathy Gentile**, parent

"I learned more in a short time spent with Profa Fann than in any other classroom experience. She takes the language and encourages usage...teaching it and keeping you comfortable with it all at the same time!" – **Sarah Smith**, student

"Profa Fann had a way of connecting Spanish to everyday life. She would explain the grammar and words in ways that helped us to connect it to common English, which deeply helped us learn. She wants you to learn so much, which helps us to achieve our goals in Spanish, and her methods and results are unrivaled. Profa Fann also kept it interesting with her humor, often giving us random stories about cows that sleep in streets. I still laugh about that, but I will never forget Profa Fann. Nashville is blessed to have her."

–**Brandt Vette**, student tutee (*Certificate winner in Spanish*)

"Profa Fann has successfully tutored students who normally would not have passed the course. She understands how to get to the heart of the problems that students are experiencing in learning a second language. She is reliable, well-prepared, personable and knowledgeable with high school and college-age students on all levels."

– **Gail Ehrhart**, Foreign Language Department
Greater Atlanta Christian School

"Profa Fann is a fantastic teacher! I was NOT intimidated and was able to retain everything that she taught. She taught in a way that made it so easy, but at the same time we learned an incredible amount in such a short time!"

– **Suzy Williams**, adult student tutee

"Profa Fann is an experienced classroom teacher as well as personal tutor. She uses a wide variety of techniques and strategies to meet the needs of her students. Her use of the Total Physical Response method for vocabulary building is extremely effective. I highly recommend Profa Fann for students who are both struggling in Spanish and for those who just want to strengthen and improve their skills."

–**Melaney Cost**, HS teacher - Spanish 3, 4 and 5,

WHY TUTORING?

I speak continuously with people who are **frustrated and confused about learning Spanish**; people who have tried to learn Spanish in the classroom or in another manner. Many believe they have some type of *mental block* or *learning disability* when it comes to learning a different language. Many believe *they* are the problem. Many have picked up books and tapes at their local bookstore or have purchased some program through an advertisement in an airline catalogue. **Some have done a mix of all these things and still do not speak well!**

The **ALDEA Language Training** tutoring program offers the **Total Physical Response** method and may integrate its success with your current language learning. TPR is a language learning method based on the coordination of speech and action. It was developed by James Asher, a professor of psychology at San Jose State University, California. It is linked to the trace theory of memory, which holds that the more often or intensively a memory connection is traced, the stronger the memory will be.

I believe learning a language can be fun and I will be *up front* with you about your specific learning style. **I will tell you what works and what does not.** Children and adults experience the **thrill of immediate understanding** by applying my powerful concept of internalizing Spanish to meet the needs of your own language learning style.
